10
Districts affected

1,074,534
People affected

43
Casualties

~36,500
People temporarily
displaced

1,700
Shelters activated

3,300 / 10,700
Water points / latrines
damaged

The monsoon emergency across south-eastern Bangladesh has entered its second week. The low-pressure system that drove the initial spell of extreme rainfall has weakened and is now tracking over Uttar Pradesh, India, but the Bangladesh Meteorological Department (BMD) continues to forecast heavy to very heavy rainfall in spells through 13 July over Chattogram, Sylhet, Rangpur, Rajshahi, Dhaka, Khulna and Barisal divisions, with rainfall intensity gradually decreasing over the coming five days¹. In the 24 hours to 9 July, the highest rainfall recorded nationally was 298.8 mm at Chattogram, followed by 265 mm at Sunamganj and 196 mm at Lama, Bandarban¹; in the 24 hours to 10 July, the heaviest rain shifted south to Teknaf, Cox's Bazar (245 mm), followed by Chattogram (203 mm)²; in the 24 hours to 11 July, the heaviest rain fell at Jafalong, Sylhet (156 mm), followed by Lama, Bandarban (155 mm) and Teknaf, Cox's Bazar (139 mm)²⁴. Six river stations remained above danger level as of 11 July, 09:00 hrs, including the Sangu at

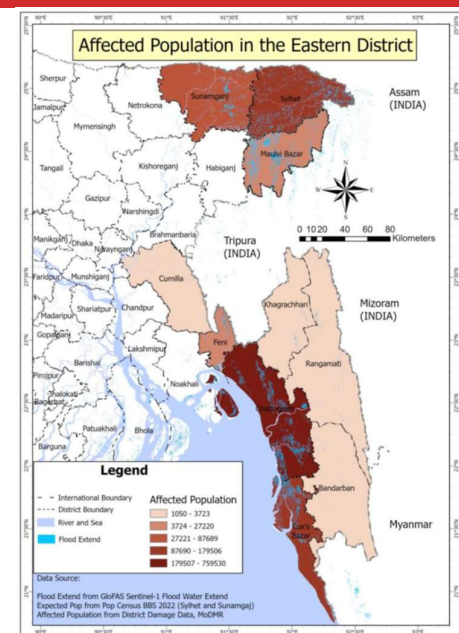

Figure 1: Affected district and affected population Map, NAWG, Update-2, 11 July 2026

Bandarban and Dohazari, the Kushiya at Fenchuganj and Markuli (Sunamganj), the Monu at Moulvibazar, and the Khowai at Balla (Habiganj); the Matamuhuri (at Lama and Chiringa) and the Monu at its Moulvibazar railway-bridge station both dropped back below danger level in the preceding 24 hours²⁴. Bandarban Tourism cell of the government has declared all tourism activities till 15 July will be closed till further notice.²⁵

By FFWC's evening (18:00) update on 11 July, the picture had moved on: seven stations on five rivers in six districts were flowing above danger level, one more than at 09:00 that morning. The Someshwari at Kolmakanda (Netrokona) crossed above danger level during the afternoon, and the Matamuhuri at Lama, which had dropped below danger level earlier in the week, rose back above it around midday and stayed there into the evening. The Sangu at Bandarban kept climbing through the day, peaking at more than 2 metres above danger level in the afternoon before easing slightly by evening.²⁷ A special BMD warning issued the same day forecasts another 100–300 mm of rain through 12 July, with river levels expected to keep rising and flooding continuing across parts of the Hill Tracts.²⁶ Looking ahead 24–48 hours, FFWC flags fresh risk of danger-level flooding on the Muhuri, Feni, Selonia and Halda rivers in Feni, Chattogram and Khagrachhari districts, with low-lying river-side areas of Lakshmipur and Noakhali also at risk of brief inundation; on the Sarigowain, Jadukata, Someshwari and Bhugai-Kangsha rivers across Sylhet, Sunamganj, Netrokona, Sherpur and Mymensingh; on the Surma-Kushiya system, where conditions in low-lying parts of Sylhet and Sunamganj may worsen slightly; and on the Teesta, Dharla and Dudhkumar rivers in the north (Nilphamari, Lalmonirhat, Rangpur, Kurigram and Gaibandha).²⁷

While rainfall has begun to ease in Chattogram city and floodwater is receding in some upazilas, runoff from upstream areas is pushing floodwaters into new downstream areas, and conditions have deteriorated sharply in Satkania and Lohagara (Chattogram) and in Banskhali and Chakaria (Cox's Bazar). A new and separate flood emergency has also opened in the north-east, where the Dhalai river embankment breached in Kamalganj upazila, Moulvibazar, on the night of 8 July. Habiganj district is also being closely monitored as the Khowai river remains above danger level. District-level figures for all of these areas are set out in the table below.

The human toll continues to climb, and different sources report different totals depending on their reporting window and method. Media reports place the national death toll at no fewer than 44 people as of the evening of 11 July³; UNHCR reports 15 Rohingya refugees killed and 4,307 people left homeless across the 33 Rohingya camps in Cox's Bazar⁷. BDRCS presents these side by side rather than reconciling them into one number.

NAWG's Flash Update #2, issued on 11 July 2026, revises this upward: an estimated 1,074,534 people across 10 districts are now affected, with 26 casualties, around 36,500 people temporarily displaced, 1,700 shelters activated, and roughly 3,300 water points and 10,700 latrines damaged nationwide.²⁶

IMPACT ON AFFECTED DISTRICTS — KEY FIGURES

Figures below combine the latest district administration (DC/DRRO/UNO office) reports with the NAWG Flash Update, dated as noted. Where a district has more than one figure from different dates or methods, both are shown rather than merged.

District / area	Total People affected	Deaths	Injured	Shelters	People sheltered	Latest source
Cox's Bazar (district total)	60,901	20 (16 Rohingya)	16 (5 Rohingya)	640 ready	—	DC Cox's Bazar Office, 9–11 Jul ¹⁶
– of which: Pekua upazila	40,255	1	2	8	220 (52 HH)	UNO Pekua, 10 Jul ¹⁷
– of which: Rohingya camps	26,119	15	—	—	4,307 homeless	UNHCR, 10 Jul ⁷
Chattogram	403,503	5	5	629	8,340	DC Chattogram Office, 10 Jul, 11:00 ¹⁸ ; NAWG, 9 Jul ⁸
Bandarban	3,679	—	—	220	2,100+ (Sadar) + 16 (Ruma)	DC Bandarban Office, 8 Jul ²⁰
Khagrachari	18,775	—	—	135	—	NAWG, 9 Jul ⁸
Rangamati	3,987	1	—	34	4,265	NAWG, 9 Jul ⁸ ; GoB statement, 9 Jul ²³
Moulvibazar	~36,900	1	—	39	380	DRRO Moulvibazar, 10 Jul ²¹
Habiganj	2,8140	—	—	2	300	DRRO Habiganj, 10 Jul ²²

**The national toll reported by the Chattogram Divisional Commissioner on 11 July 2026.*

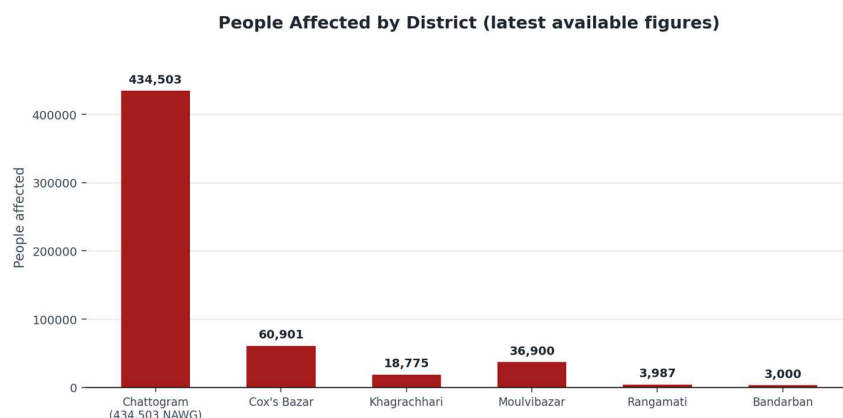

Chart: people affected by district, latest available figures per the table above (Chattogram and Cox's Bazar shown at official/NAWG scale).

Notable incidents — Chattogram (10 July)

Location	Incident	Deaths	Injured
Panchlaish / Rahman Nagar, Chattogram city	Wall collapse onto dwelling	1	2
Rangunia upazila	Hillside landslide	1	2

Source: Chattogram Division daily disaster situation report, 9–10 July 2026.¹⁹

Other district context

- Cox's Bazar (camps) – updated to 11 July, 18:00 (BDRCS/IFRC Situation Report 6): across all 33 camps, 401 weather-related incidents between 5 and 11 July have affected 8,000 households (35,897 people), damaged 3,838 shelters and displaced 8,578 individuals; 15 fatalities and 19 injuries have been recorded to date. Within the 8 BDRCS priority camps (11, 12, 13, 14, 15, 17, 18, 19), 138 incidents have affected 2,246 households (10,743 individuals), damaging 1,771 shelters and 61 WASH facilities, with 7 deaths from landslides.²⁸
- By 11 July, 18:00, flooding had spread to 71 unions and 4 municipalities in the host community, affecting an estimated 136,631 people. 8 deaths have been recorded in the host community: 5 from landslides in Cox's Bazar Sadar and Chakaria, 1 from a collapsed mud wall in Pekua, and 2 from drowning in Chakaria and Maheshkhali. Cox's Bazar district administration has paid compensation to 4 of 5 host-community deceased families' households and 2 of 7 injured residents, and has 200 CPP volunteers on standby for landslide rescue.²⁸
- Bandarban: entire district remains high landslide risk; Sangu and Matamuhuri rivers above danger level at multiple points; all tourist sites closed until at least 12 July; leave cancelled for district staff on 11–12 July.^{3,20}
- Chattogram: floodwater receding in the city and in Raozan, Rangunia, Fatikchhari and Hathazari, but conditions have worsened in Satkania and Lohagara; a coastal embankment section in Banshkhali has collapsed, allowing saline water further inland.^{3,12}
- Rangamati: 126 separate landslide incidents over four days, the highest of any district, though damage has mostly been structural rather than to life.^{3,14}
- Khagrachari: entire district remains high landslide risk; Chengi and Maini rivers rising; Dighinala–Longudu route and sections of the Khagrachari–Rangamati road remain cut.¹⁴
- Moulvibazar: Dhalai river embankment breach in Kamalganj upazila (night of 8 July) flooded Islampur, Madhabpur and Adampur unions across 4 upazilas; the 1 recorded death was a person swept away by floodwaters in Rajnagar upazila.^{4,21}
- Habiganj / Sylhet / Sunamganj: The Khowai River in Habiganj remains above the danger level, and the BDRCS field unit has been placed on alert alongside existing standby units in Sylhet and Sunamganj. According to the 11 July NDRCC forecast, renewed flood risk is expected over the next 24–48 hours for the Surma–Kushiyara river system, with the highest concern for Doarabazar, Tahirpur, Bishwambharpur, Chhatak Upazila, and Markuli Point in Sunamganj District, as well as Fenchuganj Upazila, Sylhet City and surrounding low-lying areas in Sylhet District. Rangpur Division, particularly the Teesta and Dharla river basins, is also forecast to face possible danger-level flooding during the same period.^{24,22}
- Regional connectivity, markets and landslide risk (NAWG, 11 July): road connectivity remains badly disrupted in South Chattogram alone, 241.31 km of roads have been damaged; the Bandarban–Ruma and Bandarban–Thanchi roads are blocked; the Chattogram–Ramgarh highway is underwater at Hathazari; and the Khagrachhari–Rangamati road is cut at Mahalchhari, leaving Baghaichhari and Bilaichhari residents stranded. The Chattogram–Cox's Bazar rail line remains suspended near Shomser Para, Kalurghat (resumption expected around 13 July), and Sajek Valley is closed. Markets remain non-functional in flood-affected parts of Bandarban and Khagrachhari, while markets in Chattogram, Cox's Bazar and Rangamati are functioning. Landslide risk remains high in Bandarban (Sadar, Lama, Naikhongchhari), Chattogram (Banshkhali, City Corporation wards 7, 8, 9 and 14), Cox's Bazar (Sadar, Teknaf, Ukhiya), and in Khagrachhari and Rangamati districts.²⁶

Affected population -

District	People Affected	Boys (<19)	Girls (<19)	Men (>19)	Women (>19)	PWD
Chattogram	759,590	147,951	146,198	234,087	231,313	7,900
Cox's Bazar	139,081	33,414	32,150	37,465	36,047	1,989
Sunamganj	87,689	19,700	20,413	23,361	24,207	1,131
Khagrachhari	27,220	5,511	5,477	8,140	8,090	446
Moulvibazar	21,195	4,212	4,524	6,007	6,452	273
Sylhet	17,506	3,681	3,762	4,976	5,086	226
Feni	13,801	2,761	3,020	3,830	4,189	171
Rangamati	3,723	725	684	1,191	1,123	66
Bandarban	3,679	839	790	1,055	994	52
Cumilla	1,050	214	241	279	315	12
Total	1,074,534	219,008	217,259	320,392	317,817	12,266

Source: NAWG Flash Update #2, Flash Flood & Landslides – Bangladesh, 11 July 2026. Sunamganj and Cumilla appear here for the first time; the total now spans 10 districts (up from 7 on 9 July).

BANGLADESH RED CRESCENT SOCIETY (BDRCS) ACTIONS

BDRCS National Headquarters

- The central Emergency Operations Centre (EOC) remains activated and continues to collect and consolidate information from all field units on a continuous basis.
- The American Red Cross (AmCross) Quick Action Fund (QAF) of USD 25,000 (approximately BDT 3.0 million) remains confirmed. The IFRC Disaster Response Emergency Fund (DREF) request covering the Population Movement Operation (PMO) and adjacent host communities in Cox's Bazar remains pending approval.
- Pending DREF approval, BDRCS has released **BDT 1,800,000** from decentralized/small-scale funds to six district units, as set out below. This release has since been confirmed disbursed.
- BDRCS is in discussion with Grameen phone and other corporate donors to mobilize more Funding sources.

District Unit	Allocation (BDT)
Chattogram District	300,000
Cox's Bazar	300,000
Chattogram City	200,000
Bandarban	200,000
Rangamati	200,000
Khagrachhari	200,000
Total	BDT 14,00,000

Source: BDRCS National Headquarters, decentralized fund release record, 9–11 July 2026 (internal).

With the addition of Habiganj and Moulvibazar BDRCS's confirmed cash allocation to district units now stands at **BDT 1,800,000** against the original six-unit release of BDT 1,400,000

On 11 July, BDRCS dispatched a further round of **emergency non-food and rescue items** to 12 district units to strengthen search-and-rescue and preparedness capacity, including in the newly affected north-eastern districts. The full allocation by unit and item is set out on the following page (landscape orientation for legibility).

Emergency non-food and rescue item allocation by district unit (11 July 2026)

SL	Unit	Rubber Boat	Life Vest	Rain-coat	Um-brella	RC Vest	Float Plate	Rescue Panel	Rescue Rope	Rope Bag	Gener-ator	Rescue Boots	Rescue Helmet	Gloves	Jerry-can	Water Treat.	Remarks
1	Sunamganj	2	0	15	15	15	0	0	2	2	1	5	5	5	500	1	02 floate plate, 02 rescue panel have already given

Emergency food/dry food package distribution (as of 12 July 2026)

District	Households reached	Distribution date	Allocation (BDT)
Bandarban	220	10 July 2026	200,000
Khagrachari	200	11 July 2026	200,000
Rangamati	250	11 July 2026	200,000
Chattogram District	550	10 July & 12 July 2026	300,000
Chattogram City	—	—	200,000
Cox's Bazar	500	10 July 2026	300,000
Moulvibazar	300	11 July 2026	200,000
Habiganj	200 distributed and 40 ready	12 July 2026	200,000

Each package typically includes items such as rice/puffed rice, dal, oil, salt, sugar, mineral water, biscuits, candles, a lighter/gas light, ORS, bathing and laundry soap, sanitary pads and a packaging bag, adapted by district based on local availability. Source: BDRCS food/dry food package distribution update, 12 July 2026 (internal).

BDRCS Population Movement Operation, Cox's Bazar – update (Situation Report 6, 11 July 2026, 18:00 hrs)

- Shelter: 494 affected households have received emergency shelter support in Camps 11 and 12; joint verification with the Shelter/NFI Sector is ongoing for the remaining affected households.
- WASH: WASH volunteers are assessing damaged facilities and coordinating with WASH Sector agencies in Camps 11, 18 and 19.
- Health: community mobilization, household visits, referral support and OPD/maternity care continue through field staff and volunteers.
- Livelihood/skills development: volunteers continue awareness sessions on preparedness and safety, alongside monitoring of livelihood facilities for damage.
- PGI-CEA: 29 pieces of community feedback on monsoon-related damage and needs have been collected in Camps 14, 15, 18 and 19 for referral through the Community Feedback Referral Mechanism.
- BDRCS Unit Office, Cox's Bazar: dry food assistance distributed to 500 affected households in Pekua Upazila.²⁸

GOVERNMENT AND OTHER ORGANIZATIONS' ACTIONS

- Updated relief picture (MoDMR, as of 10 July, via NAWG Flash Update #2): across Chattogram, Cox's Bazar, Rangamati, Khagrachhari and Bandarban, the government has distributed BDT 5,785,000 in cash, 643.4 metric tons of rice and 28,015 dry food packets and has a further BDT 6,200,000 in cash and 1,314.6 metric tons of rice prepositioned for release.²⁶
- The Ministry of Disaster Management and Relief's latest report, released on 11 July Saturday evening, said 1,022,963 people have been affected by the disaster triggered by days of heavy rain and hill runoff.²⁹ The ministry's assessment shows Chattogram has been the worst-hit district in terms of the number of affected people. Flooding and waterlogging across 16 Upazilas have affected 759,530 people, with 188,648 families marooned. Cox's Bazar recorded the second-highest level of damage, with 158,027 people affected across 10 Upazilas and 39,506 families stranded. Among the other affected districts, 27,220 people have been affected in nine Upazilas of Khagrachhari, 3,524 people in nine Upazilas of Rangamati, 8,350 people in seven Upazilas of Bandarban, 38,172 people in four Upazilas of Moulvibazar and 28,140 people in three Upazilas of Habiganj. An international wire report carried the same day put the national death toll at 44 and said flooding had disrupted life and stranded 267,918 households across the seven worst-hit districts, broadly in line with the ministry's own figures.²⁹
- A second round of relief was approved on 9 July: Tk 2.5 million for Chattogram, Tk 2 million for Cox's Bazar, and Tk 1 million each for Rangamati, Khagrachhari and Bandarban, along with additional rice allocations, on top of the Tk 1 million and 200 tonnes of rice given to each of the five districts on 7 July.
- The Ministry of Chittagong Hill Tracts Affairs approved a special GR rice allocation of 1,600 metric tonnes for flood- and landslide-affected people across Rangamati (500 MT), Khagrachhari (800 MT) and Bandarban (300 MT).
- An additional Tk 10 million from the Ministry of Disaster Management and Relief and Tk 20 million from the Prime Minister's Relief Fund have been allocated for the wider affected area.
- With support from Save the Children Bangladesh, YPSA has distributed Multipurpose Cash (MPC) assistance of Tk 6,000 each to 100 vulnerable households in Banskhali and Chattogram City, with a further 100 households planned.
- The Bangladesh Anticipatory Action Framework for Landslides remains active, having released approximately USD 1.6 million to support an estimated 309,873 people across 67 unions in 14 upazilas, led by WFP, Save the Children

Bangladesh, FAO and Caritas Bangladesh, alongside a parallel USD 12.2 million riverine flood framework covering 15 northern and central districts.

- The Flood Forecasting and Warning Centre (FFWC) continues to monitor river levels across the Chattogram, Sylhet, Mymensingh and Rangpur divisions and expects gradual improvement in the south-east over the next 24-48 hours, while flagging fresh flood risk in northern and north-eastern districts.
- Cox's Bazar district administration has paid cash compensation to 4 of 5 host-community deceased families (BDT 25,000 each, BDT 100,000 total) and to 2 of 7 injured host-community residents (BDT 15,000 each, BDT 30,000 total); 200 CPP volunteers are on standby for landslide rescue in risk-prone areas.¹⁶
- Bandarban district administration has suspended tourism district-wide until 12 July, cancelled staff leave for 11-12 July, appointed additional magistrates, and formed dedicated vigilance and relief teams alongside police, army, ansar and fire service personnel.²⁰

NEEDS AND RESPONSE GAP (SUMMARY)

Sector	What is needed	What we have (BDRCS)	NAWG findings
Shelter	Tarpaulin, bedding, kitchen sets	277 shelter tool kits given in Camps 11-12	Shelter support, tarpaulins, bedding, blankets, kitchen sets, and essential household items for displaced and affected families.
Food	Food for displaced families	2,220 households reached	Immediate food support for displaced households and people staying in shelters.
Multipurpose Cash Grant	Cash grants for affected families	BDRCS is planning	
Search & rescue and emergency evacuation	Boats, life vests, ropes	Items are sent to 12 units on 11 July	Support for evacuation, rescue operations, and relocation of stranded and at-risk households
WASH & health	Safe water, hygiene kits, mobile health	Mobilizing 3 Mobile Water Treatment Plant along with more than 5500 Water jerrycans Ready to Deploy 3 MMT with Medicines	Safe drinking water, emergency sanitation facilities, and hygiene supplies in shelters and affected communities. Mobile health services, emergency medical support, and disease surveillance
Protection	Dignity kits, safe spaces, GBV referral	~ 2,000 sanitary napkin have distributed	Dignity kits, safe spaces for women and girls, child friendly spaces, and GBV referral support.

Note: this section is a BDRCS EOC working summary compiled from the sources listed below, intended to support internal prioritization. The Protection row draws on the "Key Immediate Needs" priorities set out in NAWG Flash Update #1, which BDRCS has not yet separately resourced. It should be read alongside the sector-cluster assessments referenced in the Sources list.
