

Attacks on Health Care in the occupied Palestinian territory

13-26 May 2026

Data collected by Insecurity Insight shows that since 08 April 2026 and 12 May 2026, violence against health care across the occupied Palestinian territory has continued. This includes:

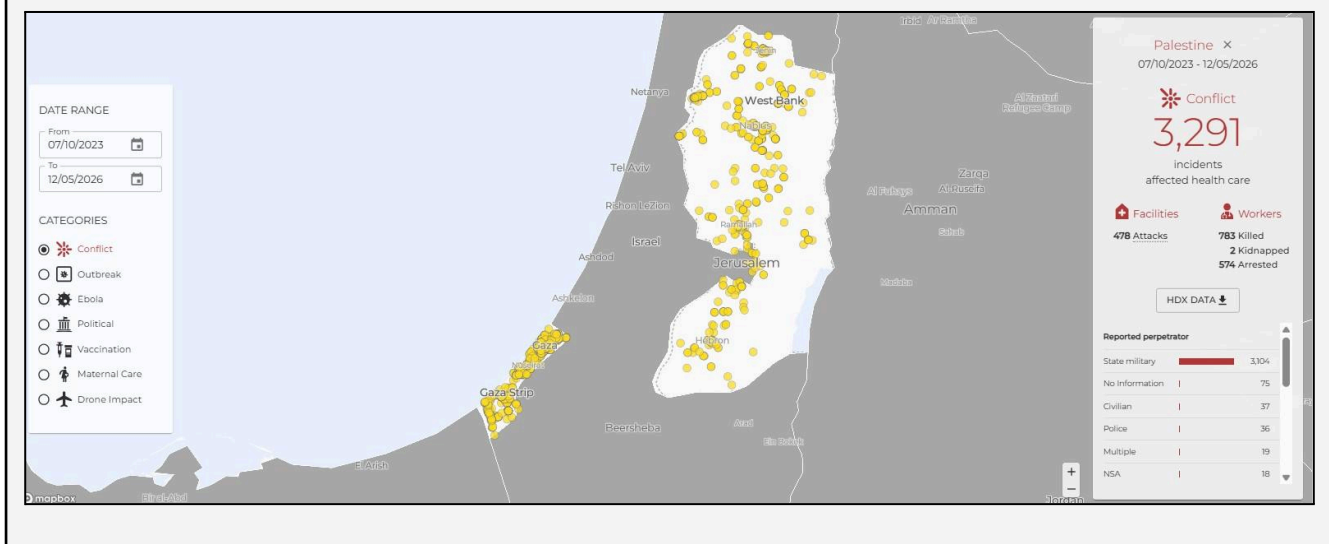

- At least **27** attacks on health care recorded during this period.
- Continued exposure of health facilities, health workers, and medical transport to violence despite reported efforts to reduce hostilities.

These figures highlight the ongoing vulnerability of health care in contexts where international humanitarian law protections are not consistently upheld. Since 07 October 2023, at least **3,291** attacks on health care have been recorded across Gaza and the West Bank. The growing use of drones has emerged as a threat to health care delivery in the occupied Palestinian territory, with more than **154** recorded incidents affecting health workers, facilities, transport, and service provision. The impact on specific health services is also particularly concerning. At least **61** maternal health services have been damaged, disrupted, or otherwise affected by violence and coercive measures, limiting access to care for pregnant women, mothers, and newborns.

This **interactive map** enables users to:

- Access near real-time data for briefings, reports, advocacy, and analysis.
- Explore context-specific trends using filters by impact and type of health service affected.
- Review individual incidents by clicking on the yellow incident markers.

Download the **data**. Updated every Monday and includes information on weapons use, perpetrators and effects. For data enquiries, please **get in touch**. Data is continuously updated and numbers may change if/ when further information is made available. See **here** for methodology.

SHCC Factsheets (EN): **2024**; **2023**; **2022**; **2021**. (AR): **2024**; **2023**; **2022**; **2021**.

Documented incidents

The publicly reported incidents below are not a complete nor a representative list of all incidents that affected the provision of health care between 13-26 May 2026. The incidents below have not been verified through ground investigations. There is a delay in reporting incidents due to our open source verification protocol.

Gaza

12 May 2026: In Beit Lahia city, North Gaza governorate, the vicinity of Al-Tayyib Clinic was hit with two shells fired from Israeli tanks, injuring 12 people, including a six-year-old child who sustained a leg injury and a pregnant woman who was injured in the chest. **Source:** [Quds News Network](#)

17 May 2026: In Deir al-Balah city and governorate, the vicinity of Martyr Al-Aqsa Hospital was bombed by Israeli forces, killing three people and injuring an unspecified number of others. **Sources:** [Quds News Network](#), [Quds News Network I](#) and [Quds News Network II](#)

23 May 2026: In Deir al-Balah city and governorate, the vicinity of Yafa Hospital was hit by an Israeli airstrike. **Source:** [Quds News Network](#)

25 May 2026: In Gaza city and governorate, the vicinity of Kamal Adwan Hospital was hit by Israeli artillery shelling and flares. **Source:** [Quds News Network](#)

27 May 2026: In Al-Tuffah neighbourhood, Gaza city and governorate, the vicinity of Al-Durra Hospital was shelled by Israeli artillery. **Source:** [Quds News Network](#)

West Bank and East Jerusalem

12 May 2026: In Aqaba town, north of Tubas governorate, the passage of an ambulance was obstructed by Israeli forces. **Source:** [Quds News Network](#)

14 May 2026: In Taffuh town, Hebron governorate, two doctors were arrested by Israeli forces who raided, searched their homes and tampered with their contents. **Sources:** [Quds News Network](#), [Quds News Network I](#) and [WAFA](#)

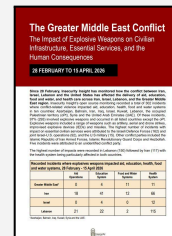

14 May 2026: In Al-Lubban Al-Sharqiya village, Nablus governorate, PRCS ambulances were prevented by Israeli forces from reaching people who were injured when Israeli forces opened fire on their vehicle. **Source:** [WAFA](#)

15 May 2026: In Al-Lubban Al-Sharqiya village, Nablus governorate, PRCS crews were prevented from reaching a child who was shot and later killed by Israeli forces. **Source:** [WAFA](#)

19 May 2026: In Taibe village, Ramallah and al-Bireh governorate, the PRCS was prevented by Israeli settlers from reaching and entering a home. **Sources:** [Negotiation Affairs Department](#) and [Quds News Network](#)

Other resources

Insecurity Insight has released a [report](#) examining how the conflict between Iran, Israel, Lebanon and the United States has impacted emergency medical services across the Greater Middle East region.

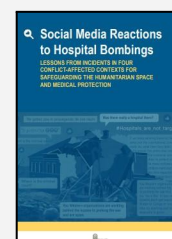

Key findings

- The highest number of incidents affecting emergency medical services were recorded in Lebanon
- Nearly three quarters of incidents were attributed to Israeli forces
- Sequential strikes on emergency responders were documented in Iran, Iraq and Lebanon.
- Emergency responders in southern Lebanon reported delays and heightened risks during rescue operations

Key take aways

- Medical care is protected in conflict
- Emergency responders are particularly vulnerable in conflict
- Attacks on emergency responses undermine the capacity of the health system to support the injured

Explosive weapons are being increasingly used in conflict, causing severe harm to civilians and critical health infrastructure. Insecurity Insight has documented 3,075 incidents in which hospitals, clinics, and pharmacies were damaged or destroyed by explosive weapons between 1 January 2016 and 4 November 2025. This [report](#) examines cases of hospital attacks, analysing social media posts and comments and how these discussions contributed to harmful content that helped to undermine the humanitarian space. **For Gaza, some comments introduced a framing that weakens IHL protection by treating the issuance of a warning or evacuation order as a form of legal justification for military action, while contextualising the area as a legitimate conflict zone.**

This document comprises threats and violence as well as protests and other events affecting the delivery of and access to health care. It is part of the [Attacks on Health Care](#) project by [Insecurity Insight](#). It is prepared from information available in local, national and international news outlets and online databases. The incidents reported are not a complete nor a representative list of all events that affected the provision of health care and have not been independently verified through ground investigations. It is funded and supported by the Tides Foundation. The opinions expressed in it do not reflect in any way the position of the Tides Foundation who are not responsible for the content expressed in this document. Visit our [oPt](#) webpage.
