

Highlights

- Following the 24 June earthquakes of magnitude 7.2 and 7.5 (18:00 local time), **authorities report more than 1,170 aftershocks.**
- Official toll: **4,333 people dead and 16,740 injured.**
- A total of **6,462 people have been rescued.**
- **Tom Fletcher, the United Nations humanitarian chief, concluded his four-day visit to the country and called for sustained international support for the Humanitarian Response Plan (HRP).**
- **An additional appeal for US\$298 million was launched to scale up the earthquake response and address the multisectoral needs of 1.3 million people over the next six months.**
- The United Nations system and its partner organizations, in coordination with the Government, are responding with multisectoral actions and will continue to scale up assistance to affected people.

Situation overview

Venezuela is facing a national emergency following two consecutive high-magnitude earthquakes (7.2 and 7.5) that struck on 24 June (18:00 local time) in the north-central region, with the epicentre located along the San Felipe–Yumare–Montalbán axis (Yaracuy/Carabobo). **Authorities report 1,171 aftershocks.**

Seventeen days after the earthquakes, authorities report a toll of **4,333 people dead, 16,740 injured and 6,462 rescued since the onset of the emergency.** Authorities also indicated that **17,907 people remain without housing.** According to official reports, 315 of those who died have yet to be identified, while search operations for possible survivors remain active at priority sites.

The Government response remains focused on search operations, the management of transitional camps and assistance to affected populations. The United Nations and its partner organizations, in coordination with the authorities, continue implementing multisectoral response activities and scaling up assistance. United Nations Under-Secretary-General for Humanitarian Affairs and Emergency Relief Coordinator Tom Fletcher concluded his visit to Venezuela this week and called on the international community to sustain support for the humanitarian response. In this context, he **announced a US\$298 million addendum to the Humanitarian Response Plan, aimed at addressing the multisectoral needs of 1.3 million people over the next six months.**

Impact on infrastructure

- Authorities report at least **856 affected buildings**, including **190 that have collapsed**.
- As part of recovery and reconstruction planning, authorities have identified 40 sites in La Guaira State, covering approximately 584,000 square metres, for the development of housing projects intended for affected populations.
- An initial assessment by the United Nations Office for Disaster Risk Reduction (UNDRR) indicates that direct damage to housing and infrastructure amounts to approximately US\$37 billion. Most of the damage, estimated at around US\$24 billion, is concentrated in housing, businesses, schools, hospitals, and public facilities. Meanwhile, preliminary estimates by UNDP indicate direct physical damage of US\$6.7 billion, equivalent to 6 per cent of GDP.

National response

- The Government response remains focused on search and rescue operations, as well as assistance to affected people.
- According to authorities, the response continues with **94 transitional camps supporting affected populations**, with a capacity of **24,129 people and a current occupancy of 18,437 people**. As of 11 July, 40 camps are located in Caracas, 28 in La Guaira and 26 in Miranda.
- Authorities are advancing a unified registration process for affected families in transitional camps through the collection of biometric and contact information to support assistance management, social support programmes and housing solutions.
- Authorities report that 86,794 families have received some form of assistance since the onset of the emergency.
- The Government of Venezuela announced the creation of an initial reconstruction fund equivalent to US\$200 million.
- A psychosocial support hotline remains available for affected people: 0800-AYUDA-01.
- A digital [form](#) has been launched by the National Council for Persons with Disabilities (CONAPDIS) to support a timely and inclusive response in affected areas.
- Mechanisms have been established to locate missing persons (www.localizapacientes.com) and to report affected individuals (0-800-RESCATE).
- Authorities have resumed administrative activities in states not affected by the earthquakes and in areas where educational infrastructure shows no visible damage. Meanwhile, school activities remain suspended in affected municipalities across the states of Aragua (Santiago Mariño, Girardot, Ocumare de la Costa de Oro and Tovar); Carabobo (Juan José Mora, Puerto Cabello, Naguanagua and Valencia); Falcón (José Laurencio Silva); La Guaira (Vargas); the Capital District (Libertador); and Miranda (Chacao, Baruta, El Hatillo, Sucre, Plaza, Zamora, Acevedo, Brión, Buroz, Páez, Andrés Bello and Pedro Gual).

Situation by state

Capital District (Caracas) and Miranda

- In Miranda State, a capacity-strengthening session on protection and transitional camp management was conducted on 11 July for coordinators of sites managed by the State Government. The activity was organized by the Protection Cluster, the Child Protection and Gender-Based Violence Areas of Responsibility (AoRs), the Infrastructure and Temporary Accommodation Working Group and OCHA, with support from Cedesex, PAHO, Cecodap, UNFPA, UNICEF, COOPI and UN Women.
- In Chacao Municipality, authorities reported that technical infrastructure assessments remain ongoing, with 26 buildings currently undergoing specialized review.

Response actions: Three (3) VHF-funded organizations operating in municipalities across Miranda State and the Capital District (Cedesex, Construyendo Futuros and FUNDANA) are supporting the initial response through general protection, child protection and gender-based violence (GBV) services. In addition, organizations such as Tinta Violeta, FUNDANA and World Vision are providing protection support to affected families, particularly through psychosocial assistance.

La Guaira

- Authorities and humanitarian organizations continue strengthening the response in La Guaira's transitional camps through the expansion of multisectoral services, improvements in accommodation conditions and coordinated assistance management. During the reporting period, progress was made in the distribution of essential items, registration and protection activities, health and psychosocial support interventions, as well as actions to improve access to safe water, sanitation, connectivity and community infrastructure.

Response actions: Five (5) partners of the Venezuela Humanitarian Fund (VHF) are supporting the response through primary health care and psychological support services (Fundación Proyecto Maniapure, Paluz, Ven Da Tu Mano, Venezuelan Red Cross and Tinta Violeta).

Carabobo and Yaracuy (epicentral zone)

- In Carabobo, the most significant impacts continue to be concentrated in Juan José Mora municipality (Morón parish). In Yaracuy, particularly in Veroes municipality and other localities near the epicentral area, homes have been reported as destroyed or at high risk. Recent assessments have identified priority needs in protection, mental health and psychosocial support, health, shelter, water, sanitation and hygiene (WASH), and food security.

Response actions: Five organizations (Venezuelan Red Cross, CESAP, Tierra Viva, Cáritas Morón and Empodérame) are providing response in health, food, water and the distribution of humanitarian assistance.

Falcón (Tucacas – Silva municipality)

- In Silva Municipality, localized flooding was reported in parts of Boca de Aroa as a result of high surf conditions, affecting communities previously impacted by the earthquakes and by soil liquefaction phenomena. Local authorities continue to monitor the situation and implement preventive measures to reduce risks to the population.
- The situation highlights a multi-hazard scenario in Silva Municipality, where earthquake-related impacts are compounded by coastal events, increasing protection, WASH, psychosocial support and early recovery needs.
- OCHA continues to coordinate with Civil Protection and Local Coordination Forum (LCF) partners to monitor the situation, verify humanitarian needs and identify potential complementary support actions.

Response actions: The capacity-building activities led by the Subnational Protection Cluster continue, alongside the operational agenda in Boca de Aroa, which has been expanded at the request of regional authorities to include Palmasola Municipality. Activities focus on WASH and psychosocial support and are being implemented by Action Against Hunger, Azul Positivo, IOM, Centroccidente, ODISEF and AVSI, in coordination with regional authorities.

Other states

- **Amazonas:** Authorities report the arrival of 75 people from La Guaira, all hosted by local families. At least 20 are considered highly vulnerable and require support with food, clothing and essential household items. The situation is further compounded by ongoing rains and flooding, which are increasing humanitarian needs.
- **Anzoátegui:** In Simón Rodríguez Municipality (El Tigre), assistance is being provided to more than 27 affected people staying with relatives. Although the locality has received more than 120 people from earthquake-affected areas, most have continued onward to Pariaguán, Maturín and Bolívar. The response is focused on medical care, food assistance and essential relief items.
- **Apure:** Authorities report the arrival of more than 230 affected people. The LCF plans to deploy complementary health, psychosocial support and WASH activities.

- **Bolívar:** A preventive accommodation site with a capacity of 120 people remains available through the State Government. At the same time, psychological support and psychological first aid services are being strengthened for people affected by the emergency.
- **Delta Amacuro:** Assistance continues for 98 people relocated from Caracas and La Guaira, mainly through family reunification processes. Identified needs are concentrated in MHPSS and displacement monitoring. Authorities and humanitarian organizations are organizing multiservice assistance activities that will include food assistance, hygiene kits, health support and protection services. As part of these efforts, WFP plans to distribute food baskets to 52 people, World Vision will complement the response with 22 food rations, and Cáritas Delta Amacuro will distribute 52 hygiene kits.
- **Nueva Esparta:** The Municipality of Arismendi implemented a comprehensive support plan for 17 affected people, including children, youth and older persons, who are staying with relatives. Assistance includes medical care, medicines, psychosocial support, host family registration and assessment of basic needs.
- **Sucre:** Authorities report the relocation of 641 people, primarily from La Guaira and Caracas, of whom 187 moved independently and 454 received institutional support for transportation. Response activities include reception, registration, medical care, psychosocial support and protection services, with particular attention to children, adolescents, older persons and other vulnerable groups.
- **Trujillo:** Authorities report 102 relocated families from La Guaira and Caracas across 14 municipalities. Most remain accommodated with relatives or community support networks and have needs related to food assistance, health, protection and livelihood recovery.
- **Zulia:** Assistance continues for people affected by the earthquakes who arrived from La Guaira and Caracas, primarily through the Maracaibo bus terminal. The Citizen Assistance Office and ASONACOP, together with the Venezuelan Red Cross, HIAS, CESVI, ASOREZ and Cáritas, continue operating a unified service point providing food assistance, legal support and hygiene kits. In addition, ASONACOP expanded assistance to displaced families in Jesús Enrique Lossada, Jesús María Semprún, Machiques, Rosario de Perijá and Mara municipalities, in coordination with Municipal Councils for the Rights of Children and Adolescents and Protection Councils. The assisted population is mainly composed of women, children, adolescents and older persons, including pregnant women and families whose homes were completely destroyed. While some remain in the state, others continue onward to Colombia.

Humanitarian coordination

- The United Nations Under-Secretary-General for Humanitarian Affairs and Emergency Relief Coordinator, Tom Fletcher, concluded his visit to Venezuela on Friday. In addition to meeting with affected people, humanitarian personnel and national authorities, he met with private sector leaders and representatives of the diplomatic community to discuss the transition from emergency response to recovery and reconstruction. He also called for continued support to the Humanitarian Response Plan (HRP) to help address the most urgent needs.
- OCHA, together with the Humanitarian Coordinator and in coordination with national authorities, continues to coordinate the humanitarian response with the United Nations and partner organizations, prioritizing actions in health, shelter, food security, WASH, logistics and protection. In this context, the United Nations system held a working meeting with the Single Authority for Operation Rescue and Hope 2026 to review priority needs, strengthen inter-institutional coordination and follow up on joint earthquake response efforts.
- UNDAC and OCHA continued supporting Civil Protection in strengthening emergency coordination and information management capacities, including technical exchanges on USAR coordination mechanisms and operational tracking tools.
- OCHA continued strengthening coordination with the private sector to support response and early recovery efforts, promoting engagement with specialized actors in areas such as logistics, debris management, infrastructure rehabilitation and reconstruction planning through existing coordination mechanisms between the United Nations and the private sector.
- Venezuelan authorities requested the activation of the Post-Disaster Needs Assessment (PDNA) within the framework of the United Nations system and with the support of UNDP. In line with the

internationally recognized PDNA methodology, the corresponding coordination efforts with relevant counterparts will be advanced.

- Authorities informed the activation of a special mechanism to expedite the processing of a “Work Visa for Special Situations” through the Ministry of Foreign Affairs. The procedure will be carried out online under the coordination of the Office of the Vice Minister for Multilateral Affairs and the Consular Affairs Office. It is intended for foreign personnel of international organizations, as well as United Nations staff, deploying to Venezuela in support of the response to the earthquake emergency.

Initial humanitarian response

Food Security

- As of 11 July, WFP has provided food assistance to more than 60,000 people affected by the 24 June earthquakes, helping sustain the emergency response across affected communities. WFP continues to expand its assistance through ready-to-eat rations, family food baskets and hot meals. During the reporting period, 5,498 ready-to-eat individual rations were distributed in the Capital District and La Guaira State, along with 364 family food baskets in the communities of Urimare (reaching 1,456 people) and 200 family food baskets for meal preparation in a camp in Libertador Municipality, benefiting 800 people.
- WFP-supported kitchens remained operational in transitional camps in La Guaira, where 7,262 hot meals were served (3,242 in Polideportivo Vargas, 2,795 in Estadio César Nieves and 1,225 in Playa Grande), helping meet the food needs of displaced and affected populations.

Health

- In Polideportivo Vargas, IOM-supported mobile health teams reached a cumulative total of 917 consultations since the start of the response, including general medicine, paediatrics, internal medicine and psychological first aid (PFA).
- UNICEF provided 113 primary health-care consultations in Polideportivo Vargas and Playa Grande transitional camps and supported vaccination campaigns in Polideportivo Vargas and Estadio César Nieves, where 83 doses of tetanus and yellow fever vaccines were administered.
- UNFPA reached 142 people through sexual and reproductive health (SRH) activities, including community awareness sessions, antenatal consultations and access to contraceptive methods in transitional camps across La Guaira.
- International Medical Corps (IMC) continues to deploy three Mobile Medical Units in La Guaira, providing primary health care, sexual and reproductive health services, and mental health and psychosocial support (MHPSS). Between 1 and 9 July, the units conducted 1,024 consultations in affected communities, primarily related to non-communicable diseases (44 per cent), communicable diseases (37 per cent), mental health and psychosocial support needs (8 per cent), sexual and reproductive health (7 per cent), and trauma or injuries (4 per cent). IMC also continues supporting access to safe water and is advancing the deployment of a Type 1 Emergency Medical Team (EMT) in Catia La Mar to strengthen health response capacity.

Logistics and Telecommunications

- WFP received a charter flight at Simón Bolívar International Airport in Maiquetía carrying 30 metric tons of emergency response equipment, including Mobile Storage Units (MSUs), generators and other logistics supplies to strengthen the operational capacity of the response. The flight also transported 3 metric tons of shelter and housing supplies provided by GOAL.
- WFP dispatched 2,393 metric tons of food from the La Guaira Temporary Prepositioning Area (TPA) to support meal preparation in transitional camps and ensure the continuity of food assistance operations.

Nutrition

- UNICEF conducted nutrition activities in transitional camps through MUAC nutritional screening, micronutrient supplementation, and Infant and Young Child Feeding in Emergencies (IYCF-E)

counselling, prioritizing young children, pregnant women and breastfeeding mothers in Polideportivo Vargas, Estadio César Nieves and Playa Grande.

Protection (including Children and Gender-Based Violence)

- UNHCR continued providing legal counselling, psychosocial support, documentation assistance and referrals to specialized services in transitional camps in La Guaira. On 11 July, 89 people, including children and adolescents, participated in protection activities, counselling sessions and psychosocial support activities in the Playa Grande, César Nieves Stadium and Polideportivo Vargas transitional camps.
- UNHCR, UNFPA, WFP, UNICEF, IOM and other humanitarian actors strengthened coordination of protection services across the transitional camps identified in La Guaira.
- UNICEF continued child protection activities in transitional camps in La Guaira, reaching 93 children and adolescents through safe spaces, recreational activities and awareness-raising messages on child sexual abuse prevention, positive parenting and respectful caregiving.
- UNFPA implemented gender-based violence (GBV) prevention and response activities, reaching 90 people through community awareness sessions in Polideportivo Vargas, Estadio César Nieves and Playa Grande. In addition, UNFPA provided psychosocial support and continued delivering sexual and reproductive health services for women and adolescents.

Shelter and Non-Food Items

- IOM and its partners continue strengthening accommodation conditions through the distribution of essential items and improvements to camp infrastructure. In Polideportivo Vargas, the distribution of 421 kitchen sets and buckets to accommodated families was completed.
- In Campo de Golf (Tanaguarena) and Mare Abajo II camps, efforts to improve accommodation conditions continue, including tent installation, drainage improvements, expansion of community services and the upgrading of spaces for humanitarian service delivery and assistance to affected populations.

Water, Sanitation and Hygiene (WASH)

- Humanitarian organizations continued strengthening water, sanitation and hygiene services in transitional camps in La Guaira. In Polideportivo Vargas, Estadio César Nieves and Playa Grande, activities included maintenance of WASH facilities, solid waste management, provision of safe water and hygiene promotion for camp residents and host communities.
- In Campo de Golf (Tanaguarena), IOM, UNICEF, Action Against Hunger, All Hands and Hearts and other partners conducted joint assessments to expand WASH infrastructure, including toilets, showers, handwashing stations and water storage facilities.
- In Mare Abajo II, the installation of basic WASH infrastructure and safe water systems continued with the participation of IOM, UNICEF, MSF and other humanitarian actors.

Humanitarian financing and contributions

- The United Nations humanitarian chief, Tom Fletcher, announced an additional appeal under the Humanitarian Response Plan for Venezuela. The appeal outlines the multisectoral needs of 1.3 million people over the next six months. To reach those in need, US\$298 million is required, in addition to the US\$632 million requested at the beginning of the year.
- The Government of Japan allocated US\$3.5 million to support the earthquake response. The funding will provide humanitarian assistance in key sectors, including food security, health care, shelter and non-food items, through WFP, the International Federation of Red Cross and Red Crescent Societies (IFRC) and IOM.
- The Royal Netherlands Navy delivered an additional shipment of humanitarian assistance and emergency relief supplies to La Guaira as part of a sustained support mechanism from Curaçao that has already facilitated five consecutive missions. A new vessel will be deployed to ensure the continuity of these operations and support the delivery of assistance to affected areas.

- As part of the support provided by UNDAC, the team includes a private sector coordination specialist to strengthen business engagement in response and recovery efforts. A private sector contributions tracker for the Venezuela earthquake response is available at <https://ven-eq.connectingbusiness.org>, together with a briefing note for the private sector outlining opportunities for engagement. Focal point: sanchez21@un.org.
- The Central Emergency Response Fund (**CERF**) allocated US\$15 million to support a multisectoral response, alongside the activation of the Venezuela Humanitarian Fund (VHF). **Norway** contributed to support the response through CERF.
- **The United States** announced a US\$100 million contribution to the VHF, in addition to a further US\$100 million in bilateral funding for response operations implemented by IOM, WFP, UNICEF, International Medical Corps, Catholic Relief Services, Samaritan's Purse, Proyecto Esperanza and the Red Cross.
- **Germany** and the Republic of **Korea** contributed US\$5 million and US\$1.25 million, respectively, to the VHF to support humanitarian action in the country. Other Member States and donors have expressed their intention to support the response through the Fund.
- **IOM launched a US\$98 million appeal to assist 850,000 people and support 140 entities over the next six months.** PAHO/WHO launched an emergency appeal for nearly US\$24 million to support health response and early recovery activities over the next six months and released US\$1.5 million from the Contingency Fund for Emergencies. **WFP** launched an initial appeal for US\$50 million to scale up food assistance and support emergency logistics and communications activities. **UNHCR** requires US\$14.8 million to support up to 30,000 affected people over the next six months.
- The **European Union** allocated €5 million to support the emergency response, in addition to the €52 million already allocated this year for humanitarian operations in the country.
- **Australia** announced a US\$2 million contribution to support the provision of food, shelter, healthcare and access to safe water through IFRC and WFP.
- **Switzerland** announced a contribution of CHF 2.5 million to support the response.
- **Sweden** allocated SEK 25 million to support the humanitarian response through food assistance, water, temporary shelter, protection and family reunification programmes implemented by WFP, UNHCR and Save the Children.
- **Denmark** announced an additional contribution of DKK 11 million to support the humanitarian response, including DKK 10 million through UNHCR and DKK 1 million through DanChurchAid and the Danish Red Cross.
- The Disasters Emergency Committee (DEC) announced an initial allocation of £7.5 million for the earthquake response in Venezuela, including £2 million contributed by the United Kingdom Government through UK Aid Match. The funds will be implemented by DEC member agencies and their local partners to support the humanitarian response.
- **OCHA** continues to coordinate with donors and partners to ensure rapid, strategic and needs-based allocation of resources.
