

Highlights

- Following the 24 June earthquakes of magnitude 7.2 and 7.5 (18:00 local time), **authorities report more than 1,100 aftershocks**.
- Official toll: **4,118 people dead and 16,740 injured**.
- A total of **6,462 people have been rescued**.
- **Tom Fletcher, the United Nation's humanitarian chief, concluded his four-day visit to the country and called for sustained international support for the Humanitarian Response Plan (HRP).**
- **An additional appeal for US\$298 million was launched to scale up the earthquake response and address the multisectoral needs of 1.3 million people over the next six months.**
- The United Nations system and its partner organizations, in coordination with the Government, are responding with multisectoral actions and will continue to scale up assistance to affected people.

Situation overview

Venezuela is facing a national emergency following two consecutive high-magnitude earthquakes (7.2 and 7.5) that struck on 24 June (18:00 local time) in the north-central region, with the epicentre located along the San Felipe–Yumare–Montalbán axis (Yaracuy/Carabobo). **Authorities report 1,171 aftershocks.**

Authorities report a toll of **4,118 people dead, 16,740 injured, and 6,462 rescued** since the onset of the emergency. Authorities also reported that approximately **17,907 people lost their homes**.

The Government response remains focused on search and rescue operations, the preparation and expansion of transitional camps and assistance to affected populations. The United Nations and its partner organizations, in coordination with the authorities, are implementing multisectoral response activities and will continue to scale up assistance to affected people. The United Nations Under-Secretary-General for Humanitarian Affairs and Emergency Relief Coordinator, Tom Fletcher, concluded his four-day visit to Venezuela on Friday and called on the international community to maintain its support for the Humanitarian Response Plan (HRP) to help address the most urgent needs of people in vulnerable situations.

Impact on infrastructure

- Authorities report at least **856 affected buildings**, including **190 that have collapsed**.
- An initial assessment by the United Nations Office for Disaster Risk Reduction (UNDRR) indicates that direct damage to housing and infrastructure amounts to approximately US\$37 billion. Most of the damage, estimated at around US\$24 billion, is concentrated in housing, businesses, schools,

hospitals, and public facilities. Meanwhile, preliminary estimates by UNDP indicate direct physical damage of US\$6.7 billion, equivalent to 6 per cent of GDP.

National response

- The Government response remains focused on search and rescue operations, as well as assistance to affected people.
- According to authorities, the response continues with **89 transitional camps** supporting affected populations, with a capacity of 24,280 people and a current occupancy of 17,128 people (70 per cent). As of 10 July, 40 camps are located in Caracas, 26 in La Guaira, and 23 in Miranda.
- The Government of Venezuela announced the creation of an initial reconstruction fund equivalent to US\$200 million.
- A psychosocial support hotline remains available for affected people: 0800-AYUDA-01.
- A digital [form](#) has been launched by the National Council for Persons with Disabilities (CONAPDIS) to support a timely and inclusive response in affected areas.
- Mechanisms have been established to locate missing persons (www.localizapacientes.com) and to report affected individuals (0-800-RESCATE).
- Authorities have resumed administrative activities in states not affected by the earthquakes and in areas where educational infrastructure shows no visible damage. Meanwhile, school activities remain suspended in affected municipalities across the states of Aragua (Santiago Mariño, Girardot, Ocumare de la Costa de Oro and Tovar); Carabobo (Juan José Mora, Puerto Cabello, Naguanagua and Valencia); Falcón (José Laurencio Silva); La Guaira (Vargas); the Capital District (Libertador); and Miranda (Chacao, Baruta, El Hatillo, Sucre, Plaza, Zamora, Acevedo, Brión, Buroz, Páez, Andrés Bello and Pedro Gual).

Situation by state

Capital District (Caracas) and Miranda

- Together with the authorities of Miranda state, members of the Inter-Cluster Coordination Group, PAHO/WHO, UNHCR, Cedesex and OCHA visited a transitional camp in Cristóbal Rojas municipality. A follow-up meeting was agreed to discuss joint actions on mental health and psychosocial support at the regional level, together with the Secretariat for Women and Gender Equality and the Secretariat of Health.
- In Chacao municipality, Miranda state, authorities announced that they have entered the technical assessment phase for affected infrastructure and reported that 26 buildings require further inspection.

Response actions: Three (3) VHF-funded organizations operating in municipalities across Miranda state and the Capital District (Cedesex, Construyendo Futuros and FUNDANA) are supporting the initial response through general protection, child protection and gender-based violence (GBV) services. In addition, organizations such as Tinta Violeta, FUNDANA and World Vision are providing protection support to affected families, particularly through psychosocial assistance.

La Guaira

- Coordination efforts among authorities, clusters and humanitarian organizations continue to strengthen the response in La Guaira's transitional camps, including needs monitoring, the expansion of sectoral services, and improvements in shelter conditions, protection services and assistance for affected populations.

Response actions: Five (5) partners of the Venezuela Humanitarian Fund (VHF) are supporting the response through primary health care and psychological support services (Fundación Proyecto Maniapure, Paluz, Ven Da Tu Mano, Venezuelan Red Cross and Tinta Violeta).

Carabobo and Yaracuy (epicentral zone)

- In Carabobo, the most significant impacts continue to be concentrated in Juan José Mora municipality (Morón parish). In Yaracuy, particularly in Veroes municipality and other localities near

the epicentral area, homes have been reported as destroyed or at high risk. Recent assessments have identified priority needs in protection, mental health and psychosocial support, health, shelter, water, sanitation and hygiene (WASH), and food security.

Response actions: Five organizations (Venezuelan Red Cross, CESAP, Tierra Viva, Cáritas Morón and Empodérame) are providing response in health, food, water and the distribution of humanitarian assistance.

Falcón (Tucacas – Silva municipality)

- As part of ongoing coordination efforts, a meeting was scheduled for next week between UNICEF and organizations from the Local Coordination Forum (LCF) supporting the response in Silva municipality to share analyses of identified needs and gaps and strengthen joint action.
- Regional authorities requested that Palmasola municipality be included in the water, sanitation and hygiene (WASH) and psychosocial support activities planned for next week. Proposed meetings with UNICEF to identify areas for collaboration will focus on the El Niño Simón Foundation, the Secretariat for Women and Gender Equality, the Child Protection System, and Hidrofalcón.

Response actions: The Protection Cluster's training cycle and planned operational activities in Boca de Aróa are ongoing, including psychosocial support and WASH interventions implemented by Action Against Hunger, Azul Positivo, IOM and Centroccidente, in coordination with regional authorities.

Other states

- In **Anzoátegui** state, students from the Universidad de Oriente (UDO)–Barcelona Campus continue operating a collection centre that has supported around 30 affected families. Civil Protection and Fire Services intensified inspections of educational facilities, while the state dispatched more than 450 metric tons of humanitarian assistance by sea to the central region.
- In **Apure** state, authorities report that more than 250 people have been displaced by the earthquakes to date. The Local Coordination Forum (LCF) continues to support a coordinated response through multisectoral assistance to displaced families, including psychological first aid (PFA).
- In **Bolívar** state, 600 metric tons of humanitarian assistance were dispatched from the State Logistics Hub, located at the VEN 911 headquarters, to the national collection centre in La Carlota. The assistance included contributions from community and sectoral actors, including the Indigenous Federation of Bolívar State and the Mayor's Office of El Palmar (Padre Pedro Chien Municipality). In the areas of mental health and protection, Cáritas Guayana, the Bolívar Psychologists Association and UGMA–Guayana Campus established psychological first aid (PFA) services, while 200 VEN 911 personnel were certified in PFA.
- In **Delta Amacuro** state, the Acting Governor, the Social Cabinet and the Single Health Authority report a total of 98 affected people who have been relocated as part of family reunification and transfer processes. Authorities requested support for mobility tracking, mapping of relocated individuals and capacity strengthening in humanitarian information management. Priority needs were also identified in mental health and psychosocial support, particularly among adults experiencing acute stress who arrived from Caracas and La Guaira, as well as older people. Tinta Violeta, CESAP and PUI are expected to support these efforts.
- As part of the response in **Delta Amacuro**, WFP will distribute rapid-response food baskets to 52 people whose return was rescheduled by authorities for 15 July. World Vision is preparing 22 food packages for families with children and adolescents, while Cáritas Delta Amacuro is preparing 52 hygiene kits for a multiservice outreach planned for 12 July at the covered sports centre. In addition, PAHO, the Regional Health Directorate, the University of Health Sciences, Cáritas Venezuela and CESAP completed training for 60 volunteers and students in psychological first aid (PFA) for shelter response.
- In **Nueva Esparta** state, the Municipality of Arismendi deployed a comprehensive response plan for 17 affected people, including children, youth and older people, who are currently staying with relatives. Assistance includes medical care, medicine distribution, psychosocial support, registration of host families and assessment of basic needs.
- In **Sucre** state, a humanitarian corridor was activated between Sucre, Caracas and La Guaira to facilitate the safe return of people from Sucre, coordinated through the state collection centre located

at the Ely Montes Gymnasium (Félix “Lalito” Velásquez Sports Complex, Cumaná). The operation provides medical assistance, psychological support and logistical support. On 9 July, seven people were transported to Cumaná, including five to Bolívar Municipality and two to Cruz Salmerón Acosta Municipality, with support from Tinta Violeta and Cáritas Cumaná. To date, 641 people have been relocated within the state, of whom 187 returned independently and 454 with government support. The Governor’s Office also urged affected people to register in the official census, established a technical commission to assess the habitability of buildings and is evaluating the use of Cumaná Airport as a humanitarian aid reception hub.

- In **Trujillo** state, regional authorities report the arrival of people affected by the earthquake from La Guaira and Caracas who have been relocated across 14 municipalities under a “temporary solidarity shelter” arrangement, receiving comprehensive assistance from joint commissions, including non-perishable food, personal items, clothing, footwear and medicines. Field monitoring by ODISEF indicates that the 32 families surveyed to date in Trujillo, Valera, San Rafael de Carvajal, Pampanito, Escuque, Sucre and Bolívar municipalities are staying with relatives. The Local Coordination Forum continues to monitor the situation and coordinate among actors to support a complementary response.
- In **Zulia** state, the National Association of Child Protection Counsellors (ASONACOP) continues supporting displaced families at the Maracaibo passenger terminal. On 8 July, five family groups (11 people, predominantly children and adolescents) were assisted, including a woman who was six months pregnant and received support from the Red Cross. On 9 July, three additional family groups arriving from La Guaira and Caracas were assisted, with destinations in Maracaibo, Machiques and Táchira, as well as onward travel to Colombia (Maicao, Bogotá and Barranquilla). The terminal’s Citizen Assistance Unit provided hot meals, transportation support coordinated with community leaders, and hygiene and food kits, while ASONACOP delivered legal assistance and protection messaging. Cases of total housing loss were reported. The presence of humanitarian organizations at the terminal has expanded, with HIAS, CESVI, ASOREZ and Cáritas joining ASONACOP and the Red Cross to strengthen assistance and referral pathways for people on the move.

Humanitarian coordination

- **The United Nations Under-Secretary-General for Humanitarian Affairs and Emergency Relief Coordinator, Tom Fletcher, concluded his visit to Venezuela on Friday. In addition to meeting with affected people, humanitarian personnel and national authorities, he met with private sector leaders and representatives of the diplomatic community to discuss the transition from emergency response to recovery and reconstruction. He also called for continued support to the Humanitarian Response Plan (HRP) to help address the most urgent needs.**
- **According to information reported by organizations, donors, government entities and other partners and reflected in the Who Does What Where infographic, the humanitarian response to the earthquakes has recorded 1,642 activities implemented by 88 organizations across 53 municipalities. Most response activities have been concentrated in La Guaira, the Capital District and Miranda, particularly in the sectors of Water, Sanitation and Hygiene (WASH), Health, Protection, Coordination and Food Security.**
- OCHA, together with the Humanitarian Coordinator and in coordination with national authorities, is coordinating the humanitarian response with the United Nations and partner organizations, prioritizing interventions in health, shelter, food assistance, water, sanitation and hygiene (WASH), logistics and protection.
- The coordination of Urban Search and Rescue (USAR) operations was formally transferred to Venezuela’s Civil Protection, which will continue coordinating both national and international teams deployed in the affected areas. At the same time, international USAR teams have begun a gradual demobilization process.
- Venezuelan authorities requested the activation of the Post-Disaster Needs Assessment (PDNA) within the framework of the United Nations system and with the support of UNDP. In line with the internationally recognized PDNA methodology, the corresponding coordination efforts with relevant counterparts will be advanced.

- Authorities informed the activation of a special mechanism to expedite the processing of a “Work Visa for Special Situations” through the Ministry of Foreign Affairs. The procedure will be carried out online under the coordination of the Office of the Vice Minister for Multilateral Affairs and the Consular Affairs Office. It is intended for foreign personnel of international organizations, as well as United Nations staff, deploying to Venezuela in support of the response to the earthquake emergency.

Initial humanitarian response

Food Security

- WFP continues scaling up its emergency food assistance, reaching affected populations through ready-to-eat rations, family food baskets, and hot meals. **Since the start of the response, WFP has provided food assistance to 52,212 people. On July 10 alone**, 4,241 individual ready-to-eat rations were distributed through implementing partners in the parishes of Coche, Macarao, Santa Rosalía, Santa Teresa, and Sucre in Libertador municipality, Capital District, ensuring immediate access to food for earthquake-affected households.
- Additionally, 800 people received assistance through the distribution of 200 family food baskets in communities across San Pedro and Catia La Mar in La Guaira. The baskets contain maize meal, pasta, pulses, vegetable oil, and salt, covering approximately 75 percent of household food requirements for 30 days. Furthermore, in partnership with World Central Kitchen, WFP provided 7,148 hot meals (lunch and dinner) across three transitional camps (the José María Vargas Sports Stadium, the César Nieves Baseball Stadium, and the Playa Grande community) supporting the food needs of displaced and affected populations.

Health

- UNICEF supported the provision of health and nutrition services at Polideportivo Vargas transitional camp, where 129 medical consultations were conducted and vaccines from the emergency immunization schedule were administered.
- In Playa Grande transitional camp, Project HOPE provided 43 medical consultations and seven psychological first aid (PFA) sessions for affected people.
- At Polideportivo Vargas Transitional Camp, IOM supported the establishment of a physiotherapy unit in coordination with Humanity & Inclusion.
- UNFPA provided sexual and reproductive health (SRH) services in Polideportivo Vargas, César Nieves Stadium and Playa Grande transitional camps, reaching 144 people through awareness-raising activities on condom use and other SRH topics. In addition, four consultations were provided to pregnant women and access to contraceptive methods was facilitated.
- IOM supported the implementation of 10 mobile health outreach activities at Polideportivo José María Vargas transitional camp, where 853 consultations have been provided to date through general medicine, paediatrics, gynaecology and obstetrics, internal medicine, psychology and psychological first aid (PFA) services.
- International Medical Corps (IMC) continues to operate three Mobile Medical Units in La Guaira State, providing primary health care, sexual and reproductive health, and mental health and psychosocial support (MHPSS) services in affected communities. The organization has also begun deploying a Type 1 Emergency Medical Team (EMT) in Catia La Mar to strengthen health response capacity. Between 1 and 8 July, IMC’s mobile medical units conducted 944 consultations in affected communities. The main reasons for consultation were non-communicable diseases (44 per cent), communicable diseases (36 per cent), mental health and psychosocial support (8 per cent), sexual and reproductive health (7 per cent), and traumatic injuries (4 per cent).
- The Government of Japan will deploy a second contingent of the Japan Disaster Relief (JDR) Medical Team to the affected area, comprising personnel from the Ministry of Foreign Affairs and the Japan International Cooperation Agency (JICA), as well as registered doctors, nurses and other health professionals.

Logistics and Telecommunications

- Simón Bolívar International Airport in Maiquetía received a UNHRD-organized flight carrying cargo for IOM, GOAL and UNICEF, transporting approximately 30 metric tons of shelter, housing and WASH supplies. In addition, a separate flight delivered nearly 9 metric tons of shelter and housing items for UNHCR. The Logistics Working Group supported coordination of both operations.
- In the telecommunications sector, WFP conducted a field assessment of the area where a fourth WFP Mobile Storage Unit (MSU) will be established in Playa Verde to support the installation of Starlink-based internet communication systems.
- Implementation of a community internet communications system also began, based on a design by Luxembourg.lu and with the support of WFP, CONATEL and the local internet service provider G-Network. The system is expected to be operational by Monday and will cover the areas of Polideportivo Vargas, César Nieves Stadium and Playa Grande transitional camps.

Nutrition

- UNICEF established a breastfeeding space at the Playa Grande transitional camp to provide privacy and appropriate conditions for breastfeeding mothers.

Protection (including Children and Gender-Based Violence)

- UNHCR provided legal counselling, psychosocial support, referrals and assistance related to documentation and identity in the Polideportivo Vargas, César Nieves Stadium and Playa Grande transitional camps. Among other key actions, UNHCR also supported SAIME in establishing a service point at César Nieves transitional camp, facilitating the renewal of identity documents for 207 people affected by the earthquakes.
- At Playa Grande transitional camp, UNHCR coordinated with the ICRC to establish a Restoring Family Links point and carried out community support and psychosocial assistance activities.
- IOM conducted activities on protection risk awareness, prevention of trafficking in persons, access to documentation and referrals to specialized services in the Playa Grande and Campo de Golf (Tanaguarena) transitional camps.
- UNICEF provided psychosocial support, recreational activities, rights awareness and violence prevention for 82 children and adolescents in the Polideportivo Vargas, César Nieves Stadium and Playa Grande transitional camps.
- UNFPA carried out gender-based violence (GBV) prevention and risk mitigation activities in the Polideportivo Vargas, César Nieves Stadium and Playa Grande transitional camps, reaching 135 people through awareness-raising activities. In addition, UNFPA provided individual psychosocial support and psychological first aid (PFA) interventions and followed up on two protection cases.
- At Playa Grande transitional camp, IOM conducted awareness-raising activities on protection risks and prevention of trafficking in persons (26), provided guidance on identity documentation (8), and referred people to available services, including health services (9).

Shelter and Non-Food Items

- At Polideportivo Vargas Transitional Camp, IOM supported the installation of 20 showers for women in coordination with the Ministry of Public Works and Infrastructure.
- In addition to the three transitional camps in La Guaira currently supported by United Nations agencies and humanitarian partner organizations, the Mare Abajo transitional camp was activated, with capacity to accommodate approximately 1,300 people and provide services to an estimated 3,000 people in surrounding communities.
- Authorities announced the arrival of a shipment from Qatar containing 10 metric tons of logistics supplies and camp equipment to support the response.

Water, Sanitation and Hygiene (WASH)

- UNICEF maintained water, sanitation and hygiene (WASH) services in the Polideportivo Vargas, César Nieves Stadium and Playa Grande transitional camps, ensuring access to safe water,

sanitation facilities, handwashing points and hygiene kits. At Polideportivo Vargas and César Nieves, 20,000 litres of water were distributed daily at each site, with support from the Ministry of Energy and other organizations in the latter camp, while Playa Grande received 10,000 litres of water through water trucking.

- At Campo de Golf (Tanaguarena) transitional camp, IOM coordinated with All Hands and Hearts, Fundación Vivienda Popular, DRC and other partners to assess and strengthen WASH services, including the installation of additional showers and the planning of water storage and treatment solutions.
- At Playa Grande Transitional Camp, Action Against Hunger (ACF) and other organizations supported the distribution of hygiene kits. CISP conducted hygiene promotion activities, distributed waste management supplies, refilled water containers and monitored sanitation conditions.

Humanitarian financing and contributions

- **The United Nations humanitarian chief, Tom Fletcher, announced an additional appeal under the Humanitarian Response Plan for Venezuela. The appeal outlines the multisectoral needs of 1.3 million people over the next six months. To reach those in need, US\$298 million is required, in addition to the US\$632 million requested at the beginning of the year.**
- **The Government of Japan allocated US\$3.5 million to support the earthquake response. The funding will provide humanitarian assistance in key sectors, including food security, health care, shelter and non-food items, through WFP, the International Federation of Red Cross and Red Crescent Societies (IFRC) and IOM.**
- **The Royal Netherlands Navy delivered an additional shipment of humanitarian assistance and emergency relief supplies to La Guaira as part of a sustained support mechanism from Curaçao that has already facilitated five consecutive missions. A new vessel will be deployed to ensure the continuity of these operations and support the delivery of assistance to affected areas.**
- As part of the support provided by UNDAC, the team includes a private sector coordination specialist to strengthen business engagement in response and recovery efforts. A private sector contributions tracker for the Venezuela earthquake response is available at <https://ven-eq.connectingbusiness.org>, together with a briefing note for the private sector outlining opportunities for engagement. Focal point: sanchez21@un.org.
- The Central Emergency Response Fund (CERF) allocated US\$15 million to support a multisectoral response, alongside the activation of the Venezuela Humanitarian Fund (VHF). **Norway** contributed to support the response through CERF.
- **The United States** announced a US\$100 million contribution to the VHF, in addition to a further US\$100 million in bilateral funding for response operations implemented by IOM, WFP, UNICEF, International Medical Corps, Catholic Relief Services, Samaritan's Purse, Proyecto Esperanza and the Red Cross.
- **Germany** and the Republic of **Korea** contributed US\$5 million and US\$1.25 million, respectively, to the VHF to support humanitarian action in the country. Other Member States and donors have expressed their intention to support the response through the Fund.
- **IOM launched a US\$98 million appeal to assist 850,000 people and support 140 entities over the next six months. PAHO/WHO** launched an emergency appeal for nearly US\$24 million to support health response and early recovery activities over the next six months and released US\$1.5 million from the Contingency Fund for Emergencies. **WFP** launched an initial appeal for US\$50 million to scale up food assistance and support emergency logistics and communications activities. **UNHCR** requires US\$14.8 million to support up to 30,000 affected people over the next six months.
- The **European Union** allocated €5 million to support the emergency response, in addition to the €52 million already allocated this year for humanitarian operations in the country.
- **Australia** announced a US\$2 million contribution to support the provision of food, shelter, healthcare and access to safe water through IFRC and WFP.
- **Switzerland** announced a contribution of CHF 2.5 million to support the response.
- **Sweden** allocated SEK 25 million to support the humanitarian response through food assistance, water, temporary shelter, protection and family reunification programmes implemented by WFP, UNHCR and Save the Children.

- **Denmark** announced an additional contribution of DKK 11 million to support the humanitarian response, including DKK 10 million through UNHCR and DKK 1 million through DanChurchAid and the Danish Red Cross.
- The Disasters Emergency Committee (DEC) announced an initial allocation of £7.5 million for the earthquake response in Venezuela, including £2 million contributed by the United Kingdom Government through UK Aid Match. The funds will be implemented by DEC member agencies and their local partners to support the humanitarian response.
- **OCHA** continues to coordinate with donors and partners to ensure rapid, strategic and needs-based allocation of resources.
